Verification Discussion Mailing List

http://mail.rap.ucar.edu/mailman/listinfo/vx-discuss

About vx-discuss

The purpose of this group is to provide a forum for discussion of topics related to forecast verification.
Appropriate topics of discussion include anything relevant for forecast verification, from basic verification concepts to advanced verification methods, from observations to observation analysis approaches, and should also include the assessment of forecast value.

Although most subscribers are expected to be from the meteorological and weather forecasting community, many of the topics are relevant for other disciplines (e.g., medicine, economics) and the list is open to anyone with an interest.

To see the collection of prior postings to the list, visit the vx-discuss Archives. (The current archive is only available to the list members.)

Using vx-discuss

To post a message to all the list members, send email to vx-discuss@mail.rap.ucar.edu.

You can subscribe to the list, or change your existing subscription, in the sections below.

Subscribing to vx-discuss

Subscribe to vx-discuss by filling out the following form. This is a closed list, which means your subscription will be held for approval. You will be notified of the list moderator's decision by email. This is also a private list, which means that the list of members is not available to non-members.

Your email address: [Field]
Your name (optional): [Field]

You may enter a privacy password below. This provides only mild security, but should prevent others from seeing your subscription. Do not use a valuable password as it will occasionally be emailed back to you in cleartext.

If you choose not to enter a password, one will be automatically generated for you, and it will be sent to you once you've confirmed your subscription. You can always request a mail-back of your password when you edit your personal options.
